

- skids
- stackable
- openwork/-solid
- with / without rim

CHARACTERISTIC

Ultra-light EURO openwork pallet with legs, very suitable for transporting and displaying goods with a low load capacity of up to 400 kg.

It is used in the food, pharmaceutical and other industries. It enables safe and easy transport and, thanks to its aesthetic design, an interesting display of goods. The lightweight and stable design of the pallets makes them easy to move from place to place.

It is stackable, which reduces storage and transport costs.

Low-weight pallet approx. 3.0 kg, easy to clean and disinfect.
