

CHARACTERISTIC

Folding baskets and containers will find use in every industry. Thanks to the possibility of folding, they take up little storage and transport space. Openwork baskets are ideal for storing and transporting clothes, fruit, vegetables, toys, tools or shopping. Plastic containers made of high-quality plastic are characterised by flexibility, impact resistance and low weight. Folding baskets are an easy way to keep your warehouse, home and garage tidy. The reusable folding containers are an excellent alternative to disposable advertising bags and cardboard boxes, are easy to clean and are equipped with two through handles for easy carrying.
